Opemipo Roberts

SELF-SUMMARY

I am a goal-oriented, proactive individual with experience in database application projects, program development, solar system design code writing, and testing, proficient in HTML, CSS, JavaScript, React, MySQL, Laravel, etc. With a keen eye for design and functionality, I specialize in crafting high-quality, contemporary websites and web applications. My broad skill set enables me to seamlessly integrate frontend and backend technologies, delivering engaging and efficient solutions. I am committed to continuous learning, staying updated with the latest industry trends, and bringing creativity to every project I undertake. Passionate about creating dynamic digital experiences, I excel in optimizing performance and user satisfaction across various platforms.

TRAININGS & CERTIFICATIONS

COREN CERTIFICATION-2024

COURSERA

- Introduction to R programming for Data Science
- Python For Data Science, AI & Development
- Google Data Analytics Capstone: Complete a Case Study
- Foundation: Data, Data, Everywhere
- Sensors and Sensor Circuit Design
- Motors and Motor Control Circuits
- Building Arduino Robots and Devices

NEW HORIZONS

- Diploma in Graphics and Multimedia
- Java Programming
- Python Programming
- Cisco Certified Network Associate

MOAT ACADEMY

- Web Application Training

PROGRAMMING LANGUAGES

HTML, JavaScript, Java, CSS, Tailwind CSS, XML, Ajax, Bootstrap, React js, Python, Django, Vanilla PHP, Laravel, jQuery.

PLATFORMS

NetBeans, Visual Studio Code, Postman, Anaconda, Jupiter, PyCharm, Figma, Canva, Visual Studio, Git Bash, Microsoft Office (Word, PowerPoint, Excel, etc.).

DATABASES

MySQL, Postgres DB.

DEVOPS

GitHub

API

Rest APIs

METHODOLOGIES

Trello, Kanban.

PROFESSIONAL EXPERIENCE

Novaji Introservice Nig Ltd

Jan. 2024 – June. 2024

Junior Software Engineer

- Assisted in the creation of the logo for Mokovi Security Limited, contributing to brand identity development.
- Designed and developed responsive websites for Cider Global Limited and Mikovi Security Limited using WordPress.
- Learned and utilized Odoo for managing business operations, enhancing workflow efficiency.
- Collaborated with clients to understand their needs and deliver tailored branding and web solutions.
- Maintained and updated existing websites to improve functionality and user experience.

- Provided technical support and troubleshooting for clients' websites and software applications.
- Conducted market research to identify trends and opportunities for business growth.
- Developed engaging content for websites and marketing materials to enhance brand visibility.

SYRECOM LIMITED, NIGERIA

Mar. 2023 – Mar. 2024

Junior Software Engineer

- Collaborating with cross-functional teams to gather and analyze system requirements for customizations and new applications.
- Developing, testing, and deploying high-quality software solutions that align with business needs, utilizing a variety of technologies including React JS, MySQL, HTML, Java, etc.
- Designing and implementing system integrations for applications, ensuring seamless data flow and functionality across platforms.
- Creating and maintaining documentation for developed solutions, including technical specifications, design documents, and user guides.
- Troubleshooting and resolving issues related to software functionality, performance, and integration, providing timely support to address operational concerns.
- Collaborating with QA teams to conduct thorough testing of software components, ensuring high standards of quality and reliability.
- Staying updated with industry trends and best practices in banking technology, and software development to propose innovative solutions for continuous improvement.
- Using PHP Laravel building, testing, and managing applications and services through a Microsoft-managed data center.
- Structuring several internal systems comprising production workflow tracking, as well as designing custom REST APIs built in Python, and Django.

FREELANCE

Feb. 2021 – Till Date

Junior Software Engineer

- Built a Responsive Freelance website, where creatives can display their works and reach out to other creatives to connect and collaborate.
- Designed a responsive website for a fruit company, FruitNaturel, which since launch has resulted in an increase in awareness of the organization and the products it sells.
- Designed an E-library website (www.cislib.com).
- Wrote clean, efficient, and well-documented codes that met industry standards.
- Collaborated with cross-functional teams, including designers, developers, and QA engineers, to deliver high-quality software products within project timelines.

SKILLS & ATTRIBUTES

- Creative Ability to communicate complex ideas effectively both verbally and in writing.
- Fluent in scripting (Python and JavaScript) and object-oriented programming languages (Java and Python).
- Good use of Microsoft productivity tools (Word, Excel, Access, Projects, and PowerPoint).
- Strong appreciation for development and willingness to upskill professionally.
- Effective interpersonal skills and ability to maintain a positive working relationship with others.
- Attention to detail and willingness to work and improve on feedback.
- Ability to perform well under pressure/ tight deadlines, prioritize tasks accordingly, and work under minimal supervision.
